Promise Igbo

Senior DevOps Engineer

07019242809 | Ajah, Lagos, Nigeria | promiseigbochizor@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

A seasoned Platform Engineer with over three years of hands-on experience in designing, implementing, and optimising CI/CD pipelines, cloud infrastructure, and monitoring solutions. Proven ability to automate deployments, manage infrastructure as code with Terraform and Bicep, and containerise applications using Kubernetes. Possesses extensive Azure certifications and a strong commitment to DevSecOps best practices, seeking to leverage expertise in cloud-native technologies and observability to enhance reliability, scalability, and operational efficiency within forward-thinking enterprise environments.

WORK EXPERIENCE

Platform Engineer | Reliance Infosystems Limited, Nigeria

02/2022 – Present

- Managed code design, implementation, and security of Continuous Integration and Continuous Deployment (CI/CD) pipelines using Git and GitHub to automate the software deployment and delivery lifecycle.
- Automated infrastructure resource management and maintained configurations utilizing Ansible, Terraform, and Bicep.
- Established and maintained monitoring tools, including Prometheus, Grafana, Azure Monitor, and Application Insights, to oversee performance, availability, usage, and failures, thereby optimising applications and infrastructure.
- Deployed and hosted applications on cloud infrastructure, ensuring a secure, reliable, and flexible environment aligned with business objectives.
- Orchestrated container deployment and management through containerization technologies and tools such as Kubernetes.
- Implemented comprehensive strategies for Backup and Disaster Recovery to ensure business continuity.
- Enforced security best practices and policies across pipelines and infrastructure to safeguard sensitive data.
- Automated repetitive tasks, including infrastructure deployment and testing, leveraging Bash and PowerShell scripting.
- Fostered collaboration with development teams and colleagues to enhance efficiency and streamline the delivery process.
- Managed incidents and troubleshooted critical failures, providing and implementing long-term solutions to prevent recurrence.

- Integrated DevSecOps best practices by embedding security tools like OWASP standards, CodeQL, Trivy, and GitHub Code Scanning, alongside Dependabot, while enforcing repository security policies and branch protection rules to strengthen code quality and vulnerability management.
- Authored documentation and designed architectural diagrams, solution designs, and cost estimates tailored to business goals and for regular audits.
- Spearheaded the migration of over 30 on-premises workloads to Azure cloud infrastructure, achieving a 35% reduction in infrastructure costs while enhancing system scalability, availability, and operational efficiency.
- Modernised legacy applications using Azure PaaS services (App Services, Azure SQL, AKS, Functions), resulting in a 40% decrease in infrastructure management overhead and accelerating application delivery timelines by 30%.
- Implemented proactive monitoring and alerting solutions with Prometheus and Grafana, elevating platform uptime to 99.9% and reducing incident detection and resolution times by 50%.
- Designed and optimised end-to-end CI/CD pipelines utilizing Azure DevOps and GitHub, reducing deployment time from several hours to under 15 minutes and increasing deployment frequency by 70%.
- Enhanced developer productivity by automating environment provisioning, testing, and deployment workflows, cutting down manual setup effort by 80% and enabling developers to concentrate on faster feature delivery.
- Deployed automated backup and disaster recovery strategies with scheduled failover validation, achieving an RPO under 15 minutes and an RTO under 1 hour for critical applications.
- Containerised and deployed microservices using Docker and Kubernetes (AKS), ensuring environment consistency across development, staging, and production, and reducing deployment-related issues by 60%.
- Standardised Infrastructure as Code (IaC) practices with Terraform and Bicep scripts, decreasing infrastructure provisioning time from days to under 1 hour and improving deployment consistency across environments.
- Collaborated with development, QA, and security teams to embed DevSecOps best practices, boosting release reliability and diminishing post-deployment defects by 45%.
- Established centralised audit logging and compliance tracking for Kubernetes, GitHub, and CI/CD platforms, improving audit readiness and reducing compliance review preparation time by 70%.

Community Pharmacist (Intern) | Mopeth Pharmacy, Lagos, Nigeria

2021 – 2022

- Assisted pharmacists with various tasks, including dispensing medication and patient counselling.

Sales Manager | Foneng, Lagos, Nigeria

2020 – 2020

- Managed and motivated a team of sales representatives to achieve sales targets.

EDUCATION

Nnamdi Azikiwe University | B.Sc., Applied Biochemistry, Awka, Nigeria

2014 – 2018

- Undertook research projects including 'Effects of Celery on Diabetes in Albino Rats' and 'Exploring the Underlying Causes of Alzheimer's Disease and Potential Therapeutic Solutions'.

Whitefield High School | WASSCE (West Africa Senior Secondary School Certificate), Lagos

2006 – 2012

Whitefield High School | Senior School Certificate (SSCE), Lagos

2013 – 2013

Grace Children Nursery and Primary School | Primary School Certificate, Nigeria

2000 – 2006

SKILLS

- Cloud Computing (Azure and AWS)
- Cloud-native deployments
- GitOps
- CI/CD
- ArgoCD
- Kubernetes
- Windows
- Ansible
- Bicep
- Communication
- Team Collaboration/Leadership
- Adaptability in Fast-Paced Environments
- Accountability and Ownership Mindset
- GitHub
- Monitoring Solutions
- Agile Methodologies
- Flux
- DevOps
- Linux
- Containerization
- Terraform
- Docker
- Problem-solving
- Attention to Detail
- Continuous Improvement Mindset

CERTIFICATES

- Microsoft Certified: Azure Fundamentals, Microsoft
- Microsoft Certified: Azure Data Fundamentals, Microsoft
- Microsoft Certified: Power Platform Fundamentals, Microsoft
- Microsoft Certified: Azure AI Fundamentals, Microsoft
- Microsoft Certified: Security, Compliance and Identity Fundamentals, Microsoft
- Microsoft Certified: Azure Administrator Associate, Microsoft
- Microsoft Certified: Azure Developer Associate, Microsoft
- Microsoft Certified: Azure Solutions Architect Expert, Microsoft
- Microsoft Certified: DevOps Engineer Expert, Microsoft
- Certified Kubernetes Administrator, Linux Foundation
- Microsoft Certified: Azure Network Engineer Associate, Microsoft
- Microsoft Certified: Azure AI Associate, Microsoft
- Introduction to GitOps, Linux Foundation
- GitHub Foundations Certified, GitHub
- GitHub Administrator Certified, GitHub
- GitHub Actions Certified, GitHub
- GitHub Advanced Security Certified, GitHub
- Google Professional Cloud Architect Certification, Google
- AWS Certified Cloud Practitioner, AWS
- Microsoft Certified: Azure Security Engineer Associate, Microsoft
- Certified in Cybersecurity (CC), ISC2
- GitHub Copilot, GitHub
- AWS Certified Solutions Architect – Associate, AWS
- Kubernetes and Cloud Native Associate, Cloud Native Computing Foundation
- Microsoft Certified: Agentic AI Business Solutions Architect, Microsoft
- Microsoft Certified: Azure AI Apps and Agents Developer Associate
